Managing Director — Finance and Administration
ALDI Australia

ALDI's contribution to Australia

ALDI Australia's operating philosophy is based on three clear values: simplicity, responsibility and consistency. This is reflected in the way we interact with our people, our customers, our business partners, the communities in which we operate and the environment. We are committed to doing the right thing in every aspect of our operations.

ALDI Australia operates more than 580 stores in six states and territories, directly employing more than 15,000 people. In 20 years of operation ALDI has contributed \$34.2 billion to the Australian economy since operations began in Australia. In 2021 alone, ALDI's operations contributed \$4.1 billion to the Australian economy. We have an Australia first sourcing approach, working with more than 1,000 Australian business partners, and these partnerships represent the most significant component of our contribution to the Australian economy.

To remain competitive and continue to service our customers with the best quality products at the lowest prices, we are focused on efficiency and finding more modern ways of operating. During 2021 we invested in upgrading our distribution centres on the east coast. The existing six distribution centres spread across New South Wales, Victoria and Queensland will be replaced by three new larger, high-tech warehouses that will leverage the benefits of high bay storage and automated picking.

In line with our values, we approach our Australian Income Tax contributions with transparency and honesty, adopting stringent processes to ensure our tax obligations are fulfilled accurately and all relevant financial documentation is fully disclosed to the Australian Tax Office (ATO).

This approach has resulted in the ATO providing us with a high assurance rating, the highest possible rating that can be achieved by Australian taxpayers. This highlights that the ATO asserts ALDI Australia is paying the correct amount of tax and has demonstrated distinction in all areas of income tax reporting.

ALDI supports the Voluntary Tax Transparency Code and has prepared this report on a voluntary basis to enhance the community's understanding of our compliance with Australia's tax laws. This report is in addition to the tax information we report to the ATO on an ongoing basis.

**This report covers the year ending
31 December 2021.**

Tax Governance and Strategy

ALDI's approach to tax planning

ALDI is committed to complying with all relevant tax legislation that applies to its associated operating jurisdictions.

Tax positions that are considered aggressive will not be supported by ALDI under any circumstances. ALDI mandates that for all tax matters that are contentious in nature or where the interpretation of the law is unclear, an opinion from an external advisor is to be sought and a conservative approach taken.

ALDI's tax policy and governance

ALDI understands the need for robust tax policy and governance measures within its organisation. As such, ALDI has developed a Tax Risk Management Framework (the Framework) which summarises ALDI's overall approach to tax and is used to ensure the business is fully compliant with all tax affairs. The Framework sets out the appropriate processes and procedures approved by ALDI's Statutory Directors to be followed in identifying and managing taxation risks in accordance with established thresholds. More specifically, ALDI has a very low tolerance for errors in tax compliance and processes.

The Framework has been designed to align with the ATO's 'Tax Risk Management and Governance Review Guide' and covers the following six key elements that ensure ALDI continues to achieve the highest standard in all respective areas of tax governance.

1. Tax Risk Tolerance & Actions
2. Roles and Responsibilities
3. Management of Key Tax Processes
4. Tax Risk Monitoring and Reporting
5. Training and Awareness
6. Non-compliance with the Framework

The Framework requires all tax risks to be escalated to the Tax Director and the experienced professionals in the Tax team, and ultimately to ALDI's Statutory Directors.

Our engagement with revenue authorities

ALDI focuses on fostering a strong and open relationship with the ATO and other relevant tax authorities. We aim to continue to maintain a positive and transparent working relationship with all tax authorities to enable an efficient and collaborative approach in dealing with tax matters.

In the last Tax Assurance Report issued by the ATO as part of the Streamlined Tax Assurance Review, ALDI received an overall high assurance rating, which is the highest tax assurance rating that can be achieved by a taxpayer in Australia.

Effective Tax Rate/ Tax Payable Reconciliation

Effective Tax Rate

The Effective Tax Rate is the average rate at which a company is taxed. The Effective Tax Rate is calculated by dividing the income tax expense by the profit before tax.

In the 2021 financial year, ALDI's Effective Tax Rate was 31.1%.

As illustrated in the adjacent table, ALDI continues to pay tax in line with the Australian Corporate Tax Rate of 30%. This supports ALDI's commitment to paying its fair share of tax within Australia.

Year	Effective Tax Rate
2021	31.1%
2020	28.0%
2019	30.9%
2018	30.0%

Reconciliation of accounting profit to income tax payable

A reconciliation of ALDI's tax expense on accounting profit to income tax payable is set out in the adjacent table.

Identification of material Temporary and Non-Temporary differences

ALDI's Effective Tax Rate of 31.1% for the 2021 fiscal year is slightly higher than the Australian Corporate Tax Rate of 30%.

The temporary differences mainly arise from differences in the timing of deductions for accounting and tax purposes for provisions, accrued expenses, and depreciation.

International Related Party Dealings

ALDI Australia operates its business independently from the ALDI Süd Group in order to cater to local consumer tastes and market expectations.

Despite autonomy of local management, ALDI Australia has a number of international related party dealings with other entities in the ALDI Süd Group, including receiving services from overseas related parties which provide valuable ancillary support, which allows us to effectively execute our core functions.

Each year, ALDI Australia discloses its transactions with related parties in Part A of the Local File in lieu of the relevant questions in the International Dealings Schedule, both of which form part of the Income Tax Return reporting obligations.

The ALDI Süd Group seeks to conduct its international related party dealings at arm's length in order to meet the regulations of all relevant jurisdictions.

In 2021, the gross value of ALDI Australia's inbound and outbound related party transactions represented 2% of revenue.

ALDI Australia's related party dealings in jurisdictions outside of Australia which have a material impact on the Australian business can be summarised in the below table.
