### Goods and/or Services not for Resale

# Introduction to ALDI Stores

The Australian ALDI expansion has grown strongly from day one of our debut store in 2001, to build a presence of over 480 stores throughout NSW, ACT, VIC, QLD, SA and WA. In our short time, we have come to be one of the top 10 Australian retailers. An ambitious expansion program is in place, with many more stores planned over the coming years. This means, the prospects for the future are very exciting as we continuously seek new property, logistics and employee opportunities, and make major investments in new stores.

Business relationships with our suppliers and partners that are based on fairness and trust are important building blocks for our success. We aim for robust partnerships where both partners meet high expectations. Transparency in our expectations of one another and ongoing dialogue form the foundation of our partnerships. Together with our suppliers, we work to optimise our products and processes and improve compliance with social and environmental standards.
